

THE ADVANTAGES OF USING ANIMATED AVATARS

HOW YOU SHOW UP VISUALLY MATTERS

- No 'Uncanny Valley' discomfort
- Expressive, Friendly & Stylized
- Instantly Relatable

Hyper-realistic avatars can sometimes fall into the "uncanny valley" - where they look almost human but not quite, which can make users feel uneasy.

That's a real engagement killer!

ANIMATED AVATARS ARE TAKING THE LEAD

- Exaggerated Expressions, Gestures & Tone
- Greater Creative Flexibility
- Cross Cultural Appeal

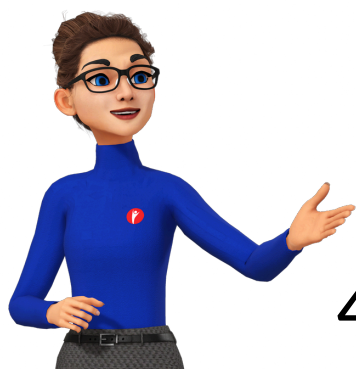

They're not trying to be something they're not - they're trying to be relatable. This makes them incredibly effective at engagement which is key to building trust and connection.
